# Big Data For New Market Reach

**SKTT**

**BLAZE™** advances the state of “applied Big Data science” by directly enabling unique application-solutions which intensely use Big Data; and by assisting client enterprises in developing a single point of integration of local and national data, dramatically enabling their own Big Data application-solutions. *BLAZE assists these client enterprises by performing knowledge and technology transfers which train the client enterprise on how to incorporate Big Data into their own offerings – and in select cases use BLAZE proprietary technology (SkyLync™) to enable quick adoption and fast go-to-market.*

**BLAZE targets markets where game-changer Application-Solutions yield \$xxM/yr in revenue potential**
